Professional Summary

Results-driven Data Analyst with 3 years of experience in data visualization and BI tools like MicroStrategy, Tableau, and Qlik Sense. Skilled in transforming complex datasets into actionable insights through interactive dashboards. Strong in data modeling, ETL, and performance optimization, with a solid background in production support and data validation. Passionate about using data to drive efficiency and strategic decisions.

Work Experience

TRUSIT | BI Developer

- Developed and delivered Tableau, Micro strategy reports based on user requirements provided in ServiceNow tickets, ensuring accurate and insightful data visualization.
- Conducted thorough unit testing to ensure data accuracy, functionality, and performance, while troubleshooting and resolving report issues to ensure timely delivery and minimizing production disruptions
- Collaborated with stakeholders to understand business requirements and translate them into actionable reporting solutions.
- Migrated SAS SQL queries to EDL (Toad Hive SQL) by translating syntax, validating data consistency, optimizing performance, and ensuring seamless execution.
- Collaborated with cross-functional teams to resolve schema discrepancies, documented the conversion process, and provided post-migration support for a smooth transition.

H-E-B | BI Developer

- Gathered and analyzed business requirements, identifying existing business models and customer needs, and translating them into scalable technical solutions.
- Designed and developed interactive dashboards with diverse visualizations to provide clear actionable insights aligned with business objectives.
- Utilized advanced Tableau features such as action filters, parameters, and calculated fields to create dynamic reports, enabling stakeholders to detailed business insights effectively.
- Extracted, transformed, and managed data using SQL queries and Teradata, ensuring seamless data integration from SQL Server and Teradata for accurate and efficient reporting.
- Optimized tableau dashboard s by structuring data with Teradata schemas, tables, and views, resolving performance bottlenecks, and improving data accessibility and report reporting.
- Published and maintained Tableau reports with automated data refresh schedules, ensuring the availability of real-time, accurate business intelligence for key decision-makers.

Technical Skills

Programming / Query Language : MYSQL, SAS SQL, Python (Basic).

Data visualization & BI Tools : Tableau, MicroStrategy, Qlik Sense.

Query Optimization & Data Extraction: Toad, Teradata

Soft Skills : Communication, Leadership, Teamwork, Time Management

Certification

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure Data Fundamentals (DP-900)
- Microsoft Certified: Power BI Data Analyst Associate (PL-300)

Achievements

- Emerging Talent (Q3 Awards, 2023)
- Always striving, never setting Appreciation from HEB Stakeholders (2024)
- Clearing highly complex and complicated deliverables on time.

Education:

R.M.K. Engineering College, Gummidipoondi

B.E/ Electrical and Electronics Engineering | 8.5 CGPA
