www.linkedin.com/in/gayathri-kalidoss-8422b3217

Highly skilled IT professionals with over 5.3 years of technical experience. Proficient in Informatica Power Center, Amazon Redshift, Oracle DB, Linux, Python, MS SQL with a strong focus on ETL concepts. Adept to designing, developing, and implementing data solutions to drive business insights and efficiencies. Demonstrated ability to manage complex projects, collaborate effectively with cross-functional teams, and deliver high-quality results in fast-paced environments. Seeking to leverage my expertise in ETL development and analytics to contribute to innovative projects and drive organizational success.

Work Experience

Cognizant | Programmer Analyst

March'2022 – Present

AbbVie | Developer | (October 2022 – Present)

PSM POD2 | Developer

Technologies: Informatica PowerCenter, SQL, ETL Development, Data Warehousing

- Designed and developed ETL mappings, sessions, and workflows using Informatica PowerCenter to support application data integration, aligned with business requirements.
- Implemented Slowly Changing Dimension (SCD) techniques (Types 1, 2, and 3) within mappings to efficiently manage historical and incremental data changes in the data warehouse.
- Developed and optimized complex SQL queries for data transformation and extraction, ensuring seamless integration into target systems with high performance and accuracy.
- Performed unit testing to validate data accuracy and reliability and created detailed unit test documentation to support client validation and ongoing maintenance.

REPLICON | Developer

- Implemented a multi-layered data architecture by extracting data from the Amazon Redshift Bronze layer, applying business transformations and logic in the silver layer using SQL, and loading curated data into the Gold layer through Informatica.
- Developed and maintained ETL pipelines incorporating Slowly Changing Dimension (SCD) methodologies to ensure proper tracking of historical data and data consistency across layers.
- Designed and executed test cases, validating actual outputs against expected results, and produced comprehensive QA documentation for client review and audit purposes.

COA DEGITALIZATION | Developer

- Developed Python scripts to extract data from scanned PDF files and load it into Excel for easy analysis and reporting.
- Automated the creation of four parameter documents by processing data from 400+ Excel files using Python, reducing manual effort.
- Built a Python script to search for keywords in XML files across folders and automatically move files or folders based on defined rules.

Tamil Nadu Urban Habitat Development Board | Technical Assistant | (April 2021 – March 2022)

- Supported engineers in technical and administrative tasks.
- Handled petition processing and documentation management.
- Prepared official documents and reports.
- Coordinated with departments and represented board communications.

Skills:

- Informatica Power Center
 - Amazon Redshift
 - Oracle DB
 - Microsoft SQL Server
 - Python
 - Linux
-

External Certification

- Microsoft fundamental certifications [AZ-900, AI-900, DP-900]
 - Microsoft azure AI Engineer associate [AI-102]
 - Microsoft azure Administrator Associate [AZ-104]
 - Microsoft Power BI data analyst [PL-300]
 - AWS Certified AI Practitioner (AIF-C01)
-

Education

- Bachelor's degree in Mathematics 2018 — 2021
Jayaraj Annapackiam Collage for Women's (Autonomous), Periyakulam, Theni.
-
